/nkasrin

Tech leader with expertise in R&D, data architecture, and product management. Seeking a role that combines technical and leadership responsibilities in an innovative, collaborative environment.

Education

2023 **PhD (Dr. rer. nat.)**, *IS & Applied Computer Science, Uni. Bamberg*, Germany

Thesis: The next generation of the likes of data mesh, data space, and data lake; the thesis proposes a data architecture pattern for inter-organizational data cataloging, governance, and exchange. *See n42r.github.io/phd*

2010 **MSc.**, *Computer Science & Engineering, German University in Cairo*, Egypt

Thesis: A framework for robot perception, including computational and algorithmic models. Ex., if a robot hears a baby but does not see it, is there a baby?

2008 **BSc.**, *Computer Science & Engineering, German University in Cairo*, Egypt

Experience

2015 – 2021 **Research Associate**, *University of Bamberg (EC Project)*, Germany

- Researched and published papers in data management, the IoT, and knowledge graphs.
- Managed the development of a data management solution for a project of 8 companies.
- Research and developed data architectures.
- Led a team to develop all software components of the platform.

2013 – 2015 **Managerial Roles / Lecturer**, *University of Technology Twintech*, Yemen

- Managed the IT and Multimedia faculties, reporting to the university president.
- Taught courses: *Object Oriented Programming*, *Analysis and Design of Software*, *Human-Computer Interaction*, *Research & Development*.

2011 – 2014 **Team Leader / Architect / R&D Engineer**, *TayalT*, Cairo, Egypt

- Managed multiple products, social media apps and games, and reported to the CEO.
- Led cross-functional teams of technical, marketing, user interface, and strategic business teams to drive the success of projects.
- Designed software architectures for the products.
- Developed AI players for games, resulting in improved user ratings and app rankings.

Skills

General

Product Management, Data Architecture, Team Leadership, UML

Programming

Python, Graph Databases, Prolog, lisp

Projects

2016 – 2019 **SIMUTOOL KM Suite**, *SIMUTOOL (EC Horizon 2020 Project)*
Data cataloging & exchange solution for an Industry 4.0 project. *See github.com/simutool*
- Managed the whole product.
- Developed the data architecture, including interfaces and data formats.
- **Results:** The project was accepted by the EC commission, several papers where published, and a PhD resulted from the successful execution of this project.

2011 – 2014 **Greetings Studio**, *TayaIT*
An App for creating and sharing e-cards and visual sentiments. *See n42r.github.io/gs*
- Managed the product.
- Led the technical team.
- **Results:** The number of active users grew, and the rating of the App was 4 stars.

2011 – 2013 **Tawla iOS Game**, *TayaIT*
Backgammon board game App on the iOS mobile platform. *See n42r.github.io/tw*
- Developed AI players and other R&D components.
- Led the technical team.
- **Results:** The rating of the App improved from 3 to 4+ stars on the Apple Store.

2010 – 2011 **ArtSapiens**, *The German University in Cairo*
Software to compete in the RoboCup 2D Soccer Simulation competition.
- Co-founded the team of 10.
- Led the R&D of several complex components (ex., Markov Decision Models).
- **Results:** The team qualified and competed in the 2011 RoboCup finals.

2004 **Reversi3D**, *The German University in Cairo*
3D board game of Othello built using Java (v5) and Java3D.
- **Results:** Selected as one of the top three projects among 100+ projects of the faculty.
