Product Development / R&D

2015 – 2021 **Researcher Associate**, *University of Bamberg (EU project)*, Germany
Developed data management solutions for a project including companies such as Airbus.
- Identified technical requirements of the computer-aided manufacturing domain.
- Built software architectures and led a team to develop corresponding software solutions.
- Developed and managed several data management products.

2011 – 2013 **Product Owner / Team Leader / Architect**, *TayalT*, Cairo, Egypt
Managed products, led the technical team, and reported to the CEO.
- Built software architectures for several software applications.
- Managed three iOS digital media products (games and social media apps).
- Aligned technical, marketing, UX/UI, and strategic business teams.
- Built AI players for games, one of which was the top app in its category for months.

Academic / Managerial

2013 – 2015 **Managerial Roles / Lecturer**, *University of Technology Twintech*, Yemen
Various managerial and organizational duties; lecturer.
- Fulfilled all duties of the dean and reported to the university president.
- Led a curriculum development committee for the modernization of the curricula.
- Acted in the graduation committee, including interacting with governmental entities.
- Courses: *Object Oriented Programming*, *Analysis and Design of Software*, *Art & Design History*, *Human-Computer Interaction*, *Research & Development*.

2008 – 2012 **Teaching Assistant**, *The German University in Cairo (GUC)*, Cairo, Egypt
Giving tutorials, preparing and grading assignments, correcting exams.
- Taught 10 hours per week of tutorials, interfacing with 150 new students per semester.
- Supervised and guided more than 100 students in completing a timely course of study.
- Courses: *Introduction to Artificial Intelligence*, *Introduction to Computer Science*, *Introduction to Computer Programming*.

Education

2019 – 2023 **PhD**, *Information Systems & Applied Computer Science, Bamberg Univ.*, Germany
2009 – 2010 **MSc**, *Engineering, The German University in Cairo (GUC)*, Egypt
2003 – 2008 **BSc**, *Engineering, The German University in Cairo (GUC)*, Egypt

Technical

Python, UML, Neo4j, Lisp, SQL, git, Prolog, Linux CLI

Projects

2017 – 2020	**kgservice**: A semantic graph database interface.	/simutool/kgservice
2019	**aku-client**: Meta-data client of the kgservice.	/simutool/aku-client
2018	**om-tool**: A tool to visualize and enrich sensor data.	/simutool/om-tool
2017	**model-builder**: Loads an ontology to a Neo4j graph.	/simutool/model-builder
2005 – 2015	A detailed portfolio for this period can be retrieved from:	bit.ly/40aGgf3
